Online Counseling Option In Response to COVID-19

Currently, the risk level in Alberta for the spread of COVID-19 is low. Our Canniff and Associates' Psychologists/therapists will continue to provide treatment in person if you are feeling healthy, as we are.

However, if you prefer, we can also arrange for sessions to be conducted online through private and secure video conferencing. At Canniff and Associates we utilize a contracted service via *GoToMeeting*. This app is free to you and easy to install on any of your electronic tools including your phone, iPad, Tablet and Computer. We will help you with this process should you wish to use this.

Please request online sessions, rather than attending in person, if you experience flu-like or cold symptoms, including:

- Cough
- Fever
- Any other symptoms of cold or flu

As an additional precaution, please inform us of the following circumstances, and we will arrange online sessions:

- Travelled outside of the country within 14 days
- Been in contact with somebody who was suspected or confirmed as having coronavirus.
- Were in a health care facility.

If you are unsure whether you should attend our clinics or not, simply speak with your psychologist/therapist. We will inform you if we believe there is a need to temporarily conduct sessions through online counseling. Our goals are to help everyone to be healthy and safe, and for our clients to receive uninterrupted psychological treatment.

Please call us at 780-453-1873, or email your psychologist/therapist directly to arrange for online counseling, or if you have any questions or concerns.

Yours truly,

The Canniff & Associates Team
